INDEPENDENT AUDITOR'S REPORT

Honorable Members of the Town Council Town of Chesterfield Chesterfield, South Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, major funds and the aggregate remaining fund information of Town of Chesterfield, South Carolina as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the major funds and the aggregate remaining fund information of Town of Chesterfield, South Carolina as of June 30, 2021, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the schedule of Town's contributions and the schedule of Town's proportionate share of the net pension liability be presented to supplement the basic financial statements. Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America. which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and the statement of fines and assessments are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and the statement of fines and assessments are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 19, 2021, on our consideration of the Town of Chesterfield, South Carolina's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Town of Chesterfield, South Carolina's internal control over financial reporting and compliance.

RECONCILIATION of the GOVERNMENTAL FUNDS STATEMENT of REVENUES, EXPENDITURES, and CHANGES in FUND BALANCE to the STATEMENT of ACTIVITIES For the Year Ended June 30, 2021

The change in net position reported for governmental activities in the statement of activities is different because:

\$ 446,445

Governmental funds report capital as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation of \$184,254 exceeded net capital outlays of \$137,305.

(46.949)

The proceeds of debt issuances provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. The amount of debt repayments for the period are \$98,998 and the amount of debt issued is \$115,187.

(16,189)

8,588

(41,095)

Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in governmental funds. These include:

Net decrease in compensated absences

Net increase in net pension related net liabilities

Changes in Net Position of Governmental Activities

\$ 350,800

NOTES TO FINANCIAL STATEMENTS June 30, 2021

NOTE 1 SUMMARY of ACCOUNTING POLICIES

The Town of Chesterfield was incorporated February 5, 1872, under a charter granted by the Secretary of State of South Carolina. On June 22, 1976, the Town adopted the mayor-council form of government under the provisions of Section 47-20 of the South Carolina Code of Laws, as amended. A new certificate of incorporation was issued on that date. The Town provides the following services as authorized by its charter: public safety (police and fire), street and sanitation, health and welfare, water and sewer and general administrative services.

The Town's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the Town is discussed below.

A. Reporting Entity

The financial statements of the Town consist only of the funds of the Town. The Town has no oversight responsibility for any other governmental entity since no other entities are considered to be controlled by or dependent on the Town. Control or dependence is determined on the basis of budget adoption, taxing authority, funding, and appointment of the respective governing board.

B. Basic Financial Statements - Government-Wide Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Town's public safety, streets and sanitation, health and welfare, and general administrative services are classified as governmental activities. The Town's utility services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities are presented on a consolidated basis and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations.

The government-wide Statement of Activities reports both the gross and net cost of each of the Town's functions and business-type activities. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or a business-type activity. Operating grants include operating-specific and discretionary grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property, sales taxes, intergovernmental revenues, interest income, etc.).

The Town does not allocate indirect costs. This government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position.

C. Basic Financial Statements - Fund Financial Statements

The financial transactions of the Town are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the Town:

1. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Town.

- a. General fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.
- c. Capital projects are used to account for financial resources to be used for the acquisition and development of capital facilities (other than those financed by proprietary funds).

2. Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the Town:

a. Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs.

D. Basis of Accounting

The government-wide statement reports using the economic resources measurement focus and the accrual basis of accounting generally include the reclassification or elimination of internal activity (between or within funds). Proprietary fund financial statements also report using this same focus and basis of accounting although internal activity is not eliminated in these statements. Revenues are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax revenues are recognized in the year for which they are levied while grants are recognized when grantor eligibility requirements are met.

D. Basis of Accounting (Continued)

Governmental fund financial statements are reported using the current financial recourses measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The Town considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported as expenditures in the year due.

Major revenue sources susceptible to accrual include sales and use taxes, motel taxes, property taxes, franchise taxes (fees), intergovernmental revenues, and investment income. In general, other revenues are recognized when cash is received.

Operating income reported in proprietary fund financial statements include revenues and expenses related to the primary, continuing operations of the fund. Principal operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as needed.

E. Budgets and Budgetary Accounting

Formal budgetary integration is employed as a management control device during the year for the General and Water and Sewer Funds. The General Fund Budget is adopted on a basis substantially consistent with the basis of accounting utilized by that fund. The Water and Sewer Fund budget is adopted on the cash basis.

The Town Council approves by ordinance the budget appropriations by department. Unused appropriations lapse at the end of the year.

The Town does not utilize a formal method of encumbrance accounting and reporting.

The Town has not presented budget information for special revenue funds and capital project funds since budgetary control is maintained on an individual grant basis. Due to timing, this information may not be meaningful.

F. <u>Cash and Investments</u>

For purposes of cash flows, the Town considers highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased to be cash equivalents.

Investment Credit Risk - The Town has no investment policy that limits its investment choices other than the limitation of state law. The State of South Carolina General Statutes permits the Town to invest in the following types of instruments:

1. Obligations of the United States, and its agencies, the principal and interest of which is fully guaranteed by the United States.

F. Cash and Investments (Continued)

- Obligations issued by the Federal Financing Bank, Federal Farm Credit Bank, the Bank of Cooperatives, the Federal Intermediate Credit Bank, the Federal Land Banks, the Federal Home Loan Banks, the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association, the Government National Mortgage Association, the Federal Housing Administration, and the Farmers Home Administration, if, at the time of investment, the obligor has a long-term unenhanced, unsecured debt rating in one of the top two ratings categories, without regard to the refinement or graduation of rating category by numerical modifier or otherwise, issued by at least two nationally recognized credit rating organizations.
- (i) General obligations of the State of South Carolina or any of its political units; or (ii) revenue obligations of the State of South Carolina or its political units, if at the time of investment, the obligor has a long-term, unenhanced, unsecured debt rating in one of the top two ratings categories, without regard to a refinement or graduation of rating category by numerical modifier or otherwise, issued by at least two nationally recognized credit rating organizations.
- 4. Savings and Loan Associations to the extent that the same are insured by an agency of the federal government.
- 5. Certificates of deposit where the certificates are collaterally secured by securities of the type described in (1) and (2) above held by a third party as escrow agent or custodian, of a market value not less than the amount of the certificate of deposit so secured, including interest; provided, however, such collateral shall not be required to the extent the same are insured by an agency of the federal government.
- Repurchase agreements when collateralized by securities as set forth in this section.
- 7. No load open-end or closed-end management type investment companies or investment trusts registered under the Investment Company Act of 1940, as amended, where the investment is made by a bank or trust company or savings and loan association or other financial institution when acting as trustee or agent for a bond or other debt issue of that local government unit, political subdivision, or county treasurer if the particular portfolio of the investment company or investment trust in which the investment is made (i) is limited to obligations described in items (1), (2), (3), and (6) of this subsection, and (ii) has among its objectives the attempt to maintain a constant net asset value of one dollar a share and to that end, value its assets by the amortized cost method.

G. Inventory

The proprietary fund inventory consists primarily of chemicals and supplies which are recorded at lower of cost or market.

H. Receivables and Allowance for Uncollectible Accounts

The Town positively enforces the property tax collection policies described in Note 1-J.; thus, all property taxes receivable is expected to be fully collectible. Allowance for uncollectible accounts receivable in the enterprise fund at year end is \$74,356 at June 30, 2021.

I. Capital Assets, Depreciation and Amortization

Capital assets are stated at historical cost or estimated historical cost. Donated capital assets are stated at their fair value on the date donated. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance is expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings and Improvements 20 - 60 Years
Mobile Equipment 5 Years
Furniture, Fixtures and Equipment 5 Years

No valuation has been made of plant assets in existence prior to the improvements under the 1960 bond issue and plant assets acquired by the Town prior to May 1, 1949. It is estimated that these assets are fully depreciated at, or prior to June 30, 2020. Depreciation is computed on the known improvements to the system since 1960 and system assets acquired by the Town since May 1, 1949. Cost of extensions to the system is based on estimates by the water superintendent since no records are maintained for the installation of each tap.

The capitalized cost of assets includes not only purchase price or construction cost, but also ancillary charges (such as site preparation and professional fees) and construction-period interest.

J. Revenue Recognition - Property Taxes

Property taxes attach an enforceable lien on property as of January 1. Taxes are levied on real property. Assessment is made by Chesterfield County. The Town provides the County with the tax levy, and the County prints the tax notices for the Town. The tax levy for 2020 was 135 mills. Property taxes are due January 15, with a 15% penalty added January 16. Notice of Levy to Taxes is sent by certified mail to delinquent taxpayers May 1. After May 1, additional costs of collection are added. Property is duly advertised for three consecutive weeks in July and sold for taxes, penalties, and costs of sales on the first Monday in August.

Property tax revenues are recognized when they become available. Available includes those property taxes expected to be collected within sixty days after year end.

K. Compensated Absences

The Town permits employees to accumulate a limited amount of compensated absences. Annual leave will be accrued at the rate of one day for each calendar month worked. Annual leave will be accrued to a maximum of forty-five days. Vacation days accrued past forty-five days are lost if not used within the fiscal year of the Town. Upon termination of employment with the Town, an employee shall be paid for accrued annual leave which has been accrued but not used. Employees will not be paid for accrued annual leave if they resign before they have worked one year.

Sick leave is accrued at the rate of one working day per calendar month to a maximum of ninety days beginning with the first month of employment. Upon termination of employment with the Town, an employee shall not be paid for any sick leave which has been accrued but not used.

K. Compensated Absences (Continued)

In the event an employee is required to devote an unusual amount of extra time to the work of the Town, the Mayor may provide for compensatory time off for such an employee.

Accumulated unpaid compensated absences totaled \$27,850 at June 30, 2021 for Town employees. Accumulated unpaid compensated absences are reported as accrued in the government-wide and proprietary financial statements. Governmental funds report only matured compensated absences payable to currently terminating employees and are included in wages and benefits payable.

L. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, Deferred Outflows of Resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Town has one item that meets these criterion-- pension-related deferrals. In addition to liabilities, the statement of financial position can also report a separate section for deferred inflows of resources. This separate financial statement element, Deferred Inflows of Resources, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Town has several items that meets these criterion—deferred revenue and pension-related deferrals.

M. Net Position

Net position is classified and presented in three components:

Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and amortization, and reduced by the outstanding balances of any mortgages, notes payable, or other borrowings, that are attributable to the acquisitions, construction, or improvement of those assets.

Restricted – Consists of assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted – All other assets that do not meet the definition of "restricted" or "invested in capital assets".

N. Fund Balance

The Town has implemented GASB Statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions". This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on government's fund balance more transparent. The following classification describes the relative strength of the spending constraints placed on the purpose for which resources can be used:

- Nonspendable fund balance—amounts that are not in a spendable form (such as inventory and prepaid) or are required to be maintained intact.
- Restricted fund balance—amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provision or by enabling legislation.

N. Fund Balance (Continued)

- Committed fund balance—amounts constrained to specific purpose by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes same highest-level action to remove or change the constraint.
- Assigned fund balance—amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.
- Unassigned fund balance—amounts that are available for any purpose; positive amounts are reported only in the general fund.
- When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

O. General Obligation Bonded Debt Service

The Town levies and collects annually upon all taxable property in the Town an ad valorem tax sufficient to pay the principal of and interest on its general obligation bonds as they respectively mature. The projected annual requirement takes into consideration the following items: the beginning fund balance available, the maintenance of an adequate ending balance, and the maintenance of an allocation rate large enough to satisfy the minimum amounts prescribed by the bond ordinances.

P. <u>Accounting Estimates</u>

The preparation of financial statements in accordance with generally accepted accounting principles requires the Town's management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Q. Grants

In the normal course of operations, the Town receives grant funds from various federal and state agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

NOTE 2 CASH AND INVESTMENTS

Deposits are shown at carrying value at June 30, 2021, as follows:

					Total
				Bank	Carrying
	1	2	3	Balance	Amount
Checking Accounts	\$ 276,062	\$ 683,984	\$ -	\$ 960,046	\$ 1,045,319
Savings Accounts	500,000	1,022,450	-	1,522,450	1,483,343
Certificates of Deposit	-	1,455,840	-	1,455,840	1,455,840
	\$ 776,062	\$ 3,162,274	\$ -	\$ 3,938,336	3,984,502
Cash on Hand and					
Other					240
					\$ 3,984,742

NOTE 2 CASH AND INVESTMENTS (Continued)

The Town's deposits are categorized to indicate the level of risk assumed by the Town at year end. Category 1 includes deposits that are insured or collateralized with securities held by the government or its agent in the government's name. Category 2 includes deposits that are collateralized with securities held by pledging financial institution's trust department or agent in the government's name. Category 3 includes uncollateralized deposits or deposits collateralized with securities held by the pledging financial institution or its trust department or agent but not in the Town's name.

Custodial Risk-Deposits - Deposits in financial institutions, reported as components of cash and cash equivalents, had a bank balance of \$3,938,336 at June 30, 2021, that was fully insured by depository insurance or secured with collateral held by the Town's agent in its name.

A reconciliation of cash and cash equivalents at June 30, 2021 as shown in the combined Statement of Net Position for the primary government follows:

Petty Cash and Other	\$ 240
Carrying Amount of Deposits	3,984,502
Total	\$ 3,984,742
Cash and Cash Equivalents	\$ 3,031,963
Cash and Cash Equivalents - Restricted	952,779
Total	\$ 3,984,742

NOTE 3 CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2021 was as follows:

		Primary	Government

The following is a summary of amounts due from and due to other funds at June 30, 2021:

	Net	Due From	Net Due to		
	Gov	ernmental	Busi	ness-Type	
		Acitvities		Actvities	
General	\$	30,000	\$	-	
Special Revenue		(63,906)		-	
Capital Projects		16,844		17,062	
	\$	(17,062)	\$	17,062	

NOTE 7 COMPONENTS OF RESTRICTED ASSETS

Certain assets of the Town have been restricted for debt service, and customer deposits. These assets, which consist of cash and short-term investments at June 30, 2021 were as follows:

		Proprietary
	General	Fund
	Fund	Type
Restricted Assets		
Reserve for Victim Assistance and Fines	\$ 60,384	\$ -
Reserve for Hospitality Tax	340,552	-
Local Option Sale Tax	163,108	-
Bail Bonds Deposited	1,318	-
Customer Deposits	-	65,692
Reserve for Cushion	 -	 321,725
Total Restricted Assets	\$ 565,362	\$ 387,417
Payable from Restricted Assets	\$ 565,362	\$ 387,417

NOTE 8 RETIREMENT PLANS

The South Carolina Public Employee Benefit Authority (PEBA), created July 1, 2012, is the state agency responsible for the administration and management of the various Retirement Systems and retirement programs of the state of South Carolina, including the State Optional Retirement Program and the S.C. Deferred Compensation Program, as well as the state's employee insurance programs. As such, PEBA is responsible for administering the South Carolina Retirement Systems' five defined benefit pension plans. PEBA has an 11-member Board of Directors, appointed by the Governor and General Assembly leadership, which serves as custodian, co-trustee and co-fiduciary of the Systems and the assets of the retirement trust funds. The Retirement System Investment Commission (Commission as the governing body, RSIC as the agency), created the General Assembly in 2005, has exclusive authority to invest and manage the retirement trust funds' assets. The Commission, and eight-member board, serves as co-trustee and co-fiduciary for the assets of the retirement trust funds. By law, the State Fiscal Accountability Authority (SFAA), which consists of five elected officials, also reviews certain PEBA Board decisions regarding the actuary of the Systems.

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the System and additions to/deductions from the System fiduciary net position have been determined on the accrual basis of accounting as they are reported by the System in accordance with generally accepted accounting principles (GAAP). For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

Plan Descriptions

The South Carolina Retirement System (SCRS), a cost–sharing multiple-employer defined benefit pension plan, was established July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits for teachers and employees of the state and its political subdivisions. SCRS covers employees of state agencies, public school districts, higher education institutions, other participating local subdivisions of government and individuals newly elected to the South Carolina General Assembly at or after the 2012 general election.

The South Carolina Police Officers Retirement System (PORS), a cost—sharing multiple-employer defined benefit pension plan, was established July 1, 1962, pursuant to the provisions of Section 9-11-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits to police officers and firefighters. PORS also covers police officers, coroners, probate judges and magistrates.

Membership

Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented below.

SCRS - Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

PORS - To be eligible for PORS membership, an employee must be required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; be a coroner in a full-time permanent position; or be a peace officer employed by the Department of Corrections, the Department of Juvenile Justice or the Department of Mental Health. Probate judges and coroners may elect membership in PORS. Magistrates are required to participate in PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to this work, unless exempted by statute. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

Benefits

Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current annual salary. A brief summary of the benefit terms for each system is presented below.

SCRS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

PORS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age. Both Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Accidental death benefits are also provided upon the death of an active member working for a covered employer whose death was a natural and proximate result of an injury incurred while in the performance of duty.

The retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase.

Contributions

Actuarial valuations are performed annually by an external consulting actuary to ensure applicable contribution rates satisfy the funding parameters specified in Title 9 of the South Carolina Code of Laws. Under these provisions, SCRS contribution requirements must be sufficient to maintain an amortization period for the financing of the unfunded actuarial accrued liability (UAAL) over a period that does not exceed the number of years scheduled in state statute. Legislation in 2017 increased, but also established a ceiling for SCRS employee contribution rates. Effective July 1, 2017, employee rates were increased to a capped rate of 9.00 percent for SCRS. The legislation also increased employer contribution rates beginning July 1, 2017, for SCRS by two percentagepoints and further scheduled employer contribution rates to increase by a minimum of one percentage point each year in accordance with state statute. However, the General Assembly postponed the one percent increase in the SCRS employer contribution rates that was scheduled to go into effect beginning July 1, 2020. If the scheduled contributions are not sufficient to meet the funding periods set in state statute, the board shall increase the employer contribution rates as necessary to meet the funding periods set for the applicable year. The maximum funding period of SCRS is scheduled to be reduced over a ten-year schedule from 30 years beginning fiscal year 2018 to 20 years by fiscal year 2028.

Additionally, the Board is prohibited from decreasing the SCRS contribution rates until the funded ratio is at least 85 percent. If the most recent annual actuarial valuation of the Systems for funding purposes shows a ratio of the actuarial value of system assets to the actuarial accrued liability of the system (the funded ratio) that is equal to or greater than 85 percent, then the board, effective on the following July 1, may decrease the then current contribution rates upon making a finding that the decrease will not result in a funded ratio of

less than 85 percent. If contribution rates are decreased pursuant to this provision, and the most recent annual actuarial valuation of the system shows a funded ratio of less than 85 percent, then effective on the following July 1, and annually thereafter as necessary, the board shall increase the then current contribution rates until a subsequent annual actuarial valuation of the system shows a funded ratio that is equal to or greater than 85 percent.

Required employer and employee contribution rates are as follows:

	SCRS Rates	PORS Rates
Employer Contribution Rate		
Retirement	15.41%	17.84%
Incidental Death Benefit	0.15%	0.20%
Accidental Death Contributions	0.00%	0.20%
Total	15.56%	18.24%
Employee Contribution Rate	9.00%	9.75%

The required contributions and percentages of amounts contributed to the Plans were as follows:

Year Ended	 SCRS Con	tributions				
June 30	Required	%Contributed		Required	%Contributed	Total
2021	\$ 33,518	100%	\$	37,967	100%	\$ 71,485

Eligible payrolls covered under the Plans were as follows:

Year Ended					
June 30	SC	RS Payroll	PO	RS Payroll	 Total
2021	\$	215,413	\$	208,152	\$ 423,565

Actuarial Assumptions and Methods

Actuarial valuations of the plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the Systems was most recently issued for the period ending June 30, 2015.

The June 30, 2019, total pension liability (TPL), net pension liability (NPL), and sensitivity information shown in this report were determined by our consulting actuary, Gabriel, Roeder, Smith and Company (GRS) and are based on an actuarial valuation performed as of July 1, 2019. The total pension liability was rolled-forward from the valuation date to the plans' fiscal year end, June 30, 2020, using generally accepted actuarial principles.

The following table provides a summary of the actuarial assumptions and methods used to calculate the TPL as of June 30, 2020.

	SCRS	PORS
Actuarial cost method	Entry Age	Entry Age
Actuarial assumptions:		
Investment rate of return	7.25%	7.25%
Projected salary increases	3.0% to 12.5%	3.5% to 9.5%
	(Varies by service)	(Varies by service)
Includes inflation at	2.25%	2.25%
Benefit adjustments	Lesser of 1% or \$500	Lesser of 1% or \$500

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumptions, the 2016 Public Retirees of South Carolina Mortality table (2016 PRSC), was developed using the Systems' mortality experience. These base rates are adjusted for future improvement in mortality using published Scale AA projected from the year 2016.

<u>Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred</u> Inflows of Resources Related to Pensions

The NPL is calculated separately for each system and represents that particular system's TPL determined in accordance with GASB No. 67 less that System's fiduciary net position. NPL totals, as of June 30, 2020, for SCRS and PORS are presented below.

	Total		Employer's Net	Plan Fiduciary Net
	Pension	Plan Fiduciary	Position	Position as a % of the
System	Liability	Net Position	Liability(Asset)	Total Pension Liability
SCRS	\$ 51,844,187,763	\$ 26,292,418,682	\$ 25,551,769,081	50.7%
PORS	\$ 8,046,386,629	\$ 4,730,174,642	\$ 3,316,211,987	58.8%

The TPL is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the Systems' financial statements. The NPL is disclosed in accordance with the requirements of GASB 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB 67 and 68 are not applicable for other purposes, such as determining theplans' funding requirements.

At June 30, 2021, the Town reported a liability of \$597,568 and \$465,609 for its proportionate share of the net pension liability for the SCRS and PORS. The net pension liability was measured as of July 1, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. The Town's proportion was .0023 % for the SCRS and .01404 % for the PORS.

For the year ended June 30, 2021, the Town recognized pension expense of \$40,301 and \$72,171 for SCRS and PORS, respectfully. At June 30, 2021, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	 Resources	 Resources
Difference Between Expected and Actual Experience	\$ -	\$ 64,081
Liability Experience	167,959	-
Town Contributions Subsequent to the Measurement Date	 71,511	
Total	\$ 239,470	\$ 64,081

The \$71,511 of deferred outflows of resources resulting from the Town's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Measurement Period	Fiscal Year	
Year Ended June 30,	Ended June 30	
2021	2022	\$19,891
2022	2023	33,744
2023	2024	25,584
2024	2025	24,659

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments is based upon 20-year capital market assumptions. The long-term expected rates of return represent assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market-based inputs. Expected returns are net of investment fees.

The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2020 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the table below. For actuarial purposes, the 7.25 percent assumed annual investment rate of return used in the calculation of the TPL includes a 5.00 percent real rate of return and a 2.25 percent inflation component.

The target allocation and best estimates of real rates of return for each major asset class are summarized in the following table:

		Expected Arithmetic Real	Long Term Expected Portfolio Real Rate of
Asset Class	Policy Target	Rate of Return	Return
Global Equity	51.0%		
Global Public Equity	35.0%	7.81%	2.73%
Private Equity	9.0%	8.91%	0.80%
Equity Options Strategies	7.0%	5.09%	0.36%
Real Assets	12.0%		
Real Estate (Private)	8.0%	5.55%	0.44%
Real Estate (REITs)	1.0%	7.78%	0.08%
Infrastructure (Private)	2.0%	4.88%	0.10%
Infrastructure (Public)	1.0%	7.05%	0.07%
Opportunistic	8.0%		
Global Tactical Asset Allocation	7.0%	3.56%	0.25%
Other Opportunistic Strategies	1.0%	4.41%	0.04%
Credit	15.0%		
High Yield Bonds/ Bank Loans	4.0%	4.21%	0.17%
Emerging Markets Debt	4.0%	3.44%	0.14%
Private Debt	7.0%	5.79%	0.40%
Rate Sensitive	14.0%		
Core Fixed Income	13.0%	1.60%	0.21%
Cash and Short Duration (Net)	1.0%	0.56%	0.01%
Total Expected Real Return	100%	_	5.80%
Inflation for Actuarial Purposes		=	2.25%
			8.05%

Discount Rate

The discount rate used to measure the TPL was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS and PORS will be made based on the actuarially determined rates based on provisions in the South Carolina Code of Laws. Based on those assumptions, the System's fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

Sensitivity Analysis

The following table presents the collective NPL of the participating employers calculated using the discount rate of 7.25 percent, as well as what the employers' NPL would be if it were calculated using a discount rate that is 1.00 percent lower (6.25 percent) or 1.00 percent higher (8.25 percent) than the current rate.

			Town's
		F	Proportionate
			Share of Net
	Discount		Pension
_	Rate		Liability
1% Decrease	6.25%	\$	1,357,000
Current Discount Rate	7.25%	\$	1,063,177
1% Increase	8.25%	\$	822,667

Pension Plan Fiduciary Net Position

Detailed information regarding the fiduciary net position of the plans administered by PEBA is available in the separately issued CAFR containing financial statements and required supplementary information for SCRS. The CAFR of the Pension Trust Funds is publicly available on PEBA's Retirement Benefits' website at www.retirement.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223.

NOTE 9 SHARED GRANT with TOWN of CHESTERFIELD

In an effort to attract quality industry into the Chesterfield/Chesterfield area, the two Towns applied for a joint grant where they could combine their efforts and resources to develop an industrial park project primarily by developing infrastructure for water and sewer. The portion attributed to the Town of Chesterfield is reported under "Capital Projects Funds".

NOTE 10 RISK MANAGEMENT

The Town is participating in a Public Entity Risk Pools for Property and Casualty Insurance. The Town has joined together with other municipalities in the state to form the South Carolina Municipal Insurance and Risk Financing Fund ("SCMIRF") and the South Carolina Municipal Insurance Trust ("SCMIT"), which are public entity risk pools currently operating as a common risk management and insurance program for general risk insurance and workers compensation, respectively. The Town pays an annual premium to SCMIRF for its general risk insurance. For the year ended June 30, 2021, the Town made premium payments totaling approximately \$60,171. SCMIRF is self-sustaining through member premiums and reinsures through commercial companies. SCMIRF's net position from its most recently issued audited financial statements at December 31, 2020, totaled approximately \$14,492,405. There were no significant reductions in coverage in the past fiscal years.

The Town pays an annual premium to SCMIT for its workers compensation insurance. For the year ended June 30, 2021, the Town made premium payments totaling approximately \$9,039. The Trust uses reinsurance agreements to reduce its exposure to large workers' compensation losses. SCMIT's net position from its most recently issued audited financial statements at December 31, 2020, totaled approximately \$60,286,153. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage in the past three fiscal years.

NOTE 11 CONTINGENT LIABILITIES AND COMMITMENTS

The Town is periodically the subject of litigation by a variety of plaintiffs. The Town's management believes that such amounts claimed by these plaintiffs, net of the applicable insurance coverage, are immaterial.

The Town receives financial assistance from various federal, state, and local governmental agencies in the form of grants. Disbursements of funds received under these programs generally require compliance with the terms and conditions specified in the grant agreements. The disbursements are also subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements included herein or on the overall financial position of the Town at June 30, 2021.

NOTE 12 PRIOR PERIOD ADJUSTMENT

In the year ended June 30, 2020, the Town changed its previous business license year from July 1 to June 30 to a May 1 to April 30 year. This change was made to align the Business License Ordinance with recommendations set forth by the Municipal Association of South Carolina to standardize license years through out the state of South Carolina. In the past, the Town had treated all business license revenue for the year July 1 to June 30 as income in that year. This resulted in deferred revenue each year for the amount received prior to June 30. As a result of the change in business license year, the income received during the current year plus a 60 day look forward will be reported in the current year.

This change resulted in a prior period adjustment for revenue set up as deferred at previous year end that should have been reported in the previous year. Due to this change, the deferred revenue at June 30, 2020 was adjusted resulting in an increase in fund balance of \$252,565 in the year ended June 30, 2021.

NOTE 13 SUBSEQUENT EVENTS

The Town evaluated all events or transactions that occurred after June 30, 2021, through the date of November 19, 2021 when the Town issued these financial statements. During this period, the Town did not have any material subsequent events that required recognition in the Town's disclosures to the June 30, 2021, financial statements.

GENERAL FUND STATEMENT of REVENUES, EXPENDITURES and CHANGES in FUND BALANCE - BUDGET (GAAP BASIS) and ACTUAL For the Year Ended June 30, 2021

Reporting Unit's Proportionate Share of Net Pension Liability as a Percentage of its Covered Employee Payroll (%)	251.0%	204.3%	192.0%	229.5%	208.2%	196.2%	187.9%

Until a full 10-year trend is compiled, the Town will present information for those years which information is available.

NOTES to REQUIRED SUPPLEMENTARY INFORMATION – PENSION LIABILITY Year Ended June 30, 2021

Note 1 Valuation Date – Actuarially determined contribution rates are calculated as of July 1, one year prior to the end of the fiscal year in which contributions are reported.

Note 2 Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method Entry Age Normal

Amortization Method Level Percentage of Pay

Remaining Amortization Period 25 Years, Open

Asset Valuation Method 5-Year Smoothing Market

Inflation 2.25%

Salary Increases 3.0% - 12.5% (SCRS), 3.5%-9.5% (PORS)

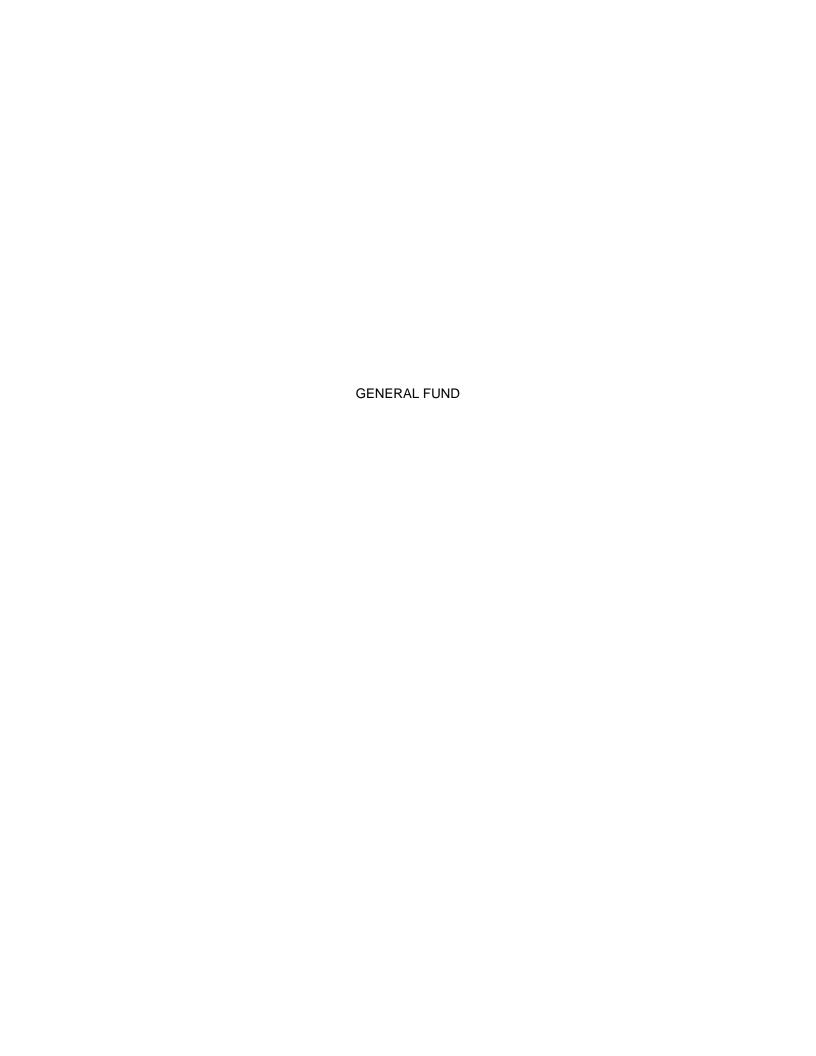

Investment Return 7.25%

Mortality 2016 PRSC, Projected at Scale AA from Year 2016

Note 3 Changes in Benefits – No changes were made to the benefit terms during the fiscal year ended June 30, 2020 (the measurement year).

Note 4 Changes in Assumptions – No changes were made to the actual assumptions utilized during the fiscal year ended June 30, 2020 (the measurement year).

INDEPENDENT AUDITOR'S REPORT on INTERNAL CONTROL over FINANCIAL REPORTING and on COMPLIANCE and OTHER MATTERS BASED on an AUDIT of FINANCIAL STATEMENTS PERFORMED in ACCORDANCE with GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the Town Council Town of Chesterfield Chesterfield, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business- type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Town of Chesterfield, South Carolina, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Town of Chesterfield, South Carolina's basic financial statements and have issued our report thereon dated November 19, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Chesterfield, South Carolina's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Chesterfield, South Carolina's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Chesterfield, South Carolina's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described below that we consider being significant deficiencies.

Findings and Responses

Financial Statement Preparation

<u>Condition</u> – Based on the experience level of the accounting staff at the Town of Chesterfield, South Carolina, we drafted the financial statement and note disclosures.

<u>Criteria</u> – The financial statements are the responsibility of the Town.

Cause – The accounting staff of the accounting firm drafts the financial statements and note disclosures.

<u>Effect</u> – The accounting staff firm drafting the financial statements requires additional procedures to be completed by management to ensure that management takes responsibility for the financial statements.

<u>Recommendation</u> – Management is provided with a preliminary draft and asked that they review the financial statements to determine the completeness and accuracy of the financial information. Management has reviewed the financial statements and approved them. Subsequent to approval, a final report was issued.

<u>Response</u> – Management will review the financial statements to determine the completeness and accuracy of the financial information and then approve the report.

Separation of Duties

<u>Condition</u> – During our audit we reviewed procedures over transaction cycles related to receipting, cash disbursements, utility billing, and payroll and found the Town to have limited segregation of duties related to the disbursements cycle.

<u>Criteria</u> – Adequate separation of duties calls for clear segregation of functions such as receipts, disbursements, recording, custody of assets, transaction authorization, and performance monitoring.

<u>Cause</u> – The accounting staff of the Town maintains and controls the check stock, prepares checks, records disbursements, prepares deposits and posts to general ledger.

Effect – The existence of this limited segregation of duties increases the risk of misstatement or fraud.

<u>Recommendation</u> – While we recognize the number of staff is not large enough to eliminate these deficiencies entirely, we believe the risk can be reduced by another person reviewing cancelled checks, unopened bank statements and bank reconciliations.

<u>Response</u> – Considering the lack of separation of responsibility, Council and management maintains an awareness of the internal control structure when making accounting and administrative decisions to ensure that reasonably adequate policies and procedures exist and are maintained.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Chesterfield, South Carolina's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Town of Chesterfield, South Carolina's Response to Findings

Town of Chesterfield, South Carolina's response to the findings identified in our audit is described above. Town of Chesterfield, South Carolina's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Other Matters

We noted certain other matters that were reported to management of the Town of Chesterfield, South Carolina in separate letter dated November 19, 2021.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
